

OSHA Project Partnership Recognition

Background

The OSHA Strategic Partnership Program (OSPP) provides opportunities for OSHA to partner with employers, workers, professional or trade associations, labor organizations, and other interested stakeholders. OSHA Strategic Partnerships are unique agreements designed to encourage, assist, and recognize partner efforts to eliminate serious hazards and enhance workplace safety and health practices. OSHA Strategic Partnerships establish specific goals, strategies, and performance measures to improve worker safety and health. OSHA Strategic Partnerships focus on improving safety and health at large construction projects and where OSHA has jurisdiction. Most OSHA Strategic Partnerships are based out of local OSHA Area or Regional Offices. Resources for creating a project partnership can be found at <https://www.osha.gov/partnerships/>.

Goal

Grow the impact of our long-standing national alliance with OSHA across the country and encourage more members to consider improving their relationship and communications with the local OSHA offices to be focused on injury prevention.

Criteria

To qualify for submission OSHA Strategic Project Partnership must be active during the 2022 calendar year and the fully executed agreement must be uploaded. This may include multi-year projects where the agreement was executed prior to 2022 as the basis of judging will be the successful execution of the agreement and not the initial plan. There are no restrictions on project size and may include building, highway, infrastructure, and utility projects. Winning submissions will include documented successful preventative measures, worker educational events, and mutual creative solutions to challenging issues. A NAWIC member must have had an active role in the project in some way, i.e. general or specialty contractor, supplier, design professional, owner/rep., etc.

OSHA Project Partnership Recognition

DEADLINE: Extended to June 30, 2023

Application

Member: _____

Firm: _____

Address: _____

Phone: _____

Email: _____

Project Name: _____

Project Location: _____

OSHA Representative: _____

OSHA Rep Phone: _____

OSHA Rep: Email: _____

Submissions must include all items listed below as a single .pdf document, including images, with a maximum file size of 10 MB and sent to nawic.oshaalliance@outlook.com.

1. Provide project description including size and duration (300-word limit)
2. Highlight specific safety challenges initially identified and solutions implemented (500-word limit)
