

## SAMPLE E-MAIL REQUESTING FITTED PPE-WOMEN

WRITTEN BY: Marjorie Del Toro – ehsInc.org

**Subject:** Concern Regarding Proper Fit of Safety Equipment

Dear (employer)

I hope this message finds you well. I wanted to express my appreciation for your time and the company's commitment to the well-being of its employees, which is evident through our robust safety culture.

I would like to bring to your attention a concern regarding the sizing of the personal protective equipment (PPE) provided. While the PPE offered is undoubtedly crucial for our safety, I have noticed that much of it is tailored towards standard sizes, predominantly larger sizes designed for men.

As someone who values safety above all else, I am worried about the potential risks associated with wearing improperly fitted safety gear. Specifically, I am concerned about the fit of my safety vest. It is essential for me to have equipment that fits correctly to mitigate the risk of injury in the workplace.

After conducting some research, I have come across **ABS Safety Equipment (Vendor name)**, a vendor that offers PPE specifically designed for women. I have found a safety vest on their website that I believe would provide me with the proper fit and protection necessary for my role.

To facilitate further action, I have included the link to the specific safety vest that I believe suits my needs best: [\[Insert Link Here\]](#). This link will direct you to the vendor's website, where you can explore the product further, including pricing details.

Thank you for considering my request, **(employer)**. Ensuring the proper fit of safety equipment is crucial for the well-being of all employees, and I am confident that addressing this issue will contribute to maintaining a safe and productive work environment.

Best regards,

[Your Name]
